Try using Global Search.

The screenshot shows the Salesforce Setup interface. The top navigation bar includes tabs for Home, Object Manager, and Search Setup. A sidebar on the left lists various setup categories like Data, Big Objects, Feature Settings, Topics, Einstein, Einstein Search, Search Results Objects, Objects and Fields, Object Manager, Picklist Value Sets, Schema Builder, Environments, Jobs, Apex Flex Queue, Apex Jobs, Background Jobs, and Bulk Data Load Jobs. The main content area is titled "Picklist Value Sets" and contains a sub-section titled "Global Value Sets". It displays a table with columns for Action, Label, and Description. The table includes rows for "Edit | Del" and "DeleteAll" under "Label", and "College Name" and "Department" under "Description". A "New" button is located at the bottom left of the table. The status bar at the bottom shows system information including weather (20°C, Partly Cloudy), date (2021-08-01), and time (16:01:00).
